FORWARD LOOKING STATEMENTS

Various statements contained in this presentation, including those that express a belief, expectation or intention, as well as those that are not statements of historical fact, are forward-looking statements. These forward-looking statements may include projections and estimates concerning the timing and success of strategies, plans or intentions. We have based these forward-looking statements on our current expectations and assumptions about future events. These assumptions include, among others, our projections and expectations of the ICOs, our ability to create a cash flow opportunity with attractive current yields and upside from increasing Token value and cost efficiencies and our understanding of our competition and general economic, demographic and Crypto market conditions that may impact our business. While we consider these expectations and assumptions to be reasonable, they are inherently subject to significant business, economic, competitive, regulatory and other risks, contingencies and uncertainties, most of which are difficult to predict and many of which are beyond our control and could cause actual results to differ materially from any future results, performance or achievements expressed or implied by these forward- looking statements. Investors should not place undue reliance on these forward-looking statements. We undertake no obligation to update any forward looking statements to conform to actual results or changes in our expectations, unless required by applicable law.

INTRODUCING TRADING CHAMBERS

01

Trading Chambers Project is an Investment Firm based in London, UK, which specializes in investing in ICOs. We offer several lucrative investment options for our investors. Our team is comprised of experienced traders and ICO advisors who have consulted some of the best projects in ICO space

02

With several years of Cryptocurrency trading experience, our skilled traders use a mix of strategies for generating best possible returns for its investors

03

One of our many investment strategies include purchasing the tokens at a nascent stage, mostly as a private sale and entering the exchange as a maker on the day when the tokens are up for trading on exchanges. The profits made are thus shared with our investors. We spend considerable efforts to research about different ICOs, meet their team, talk to founders, understand their vision and viability of the Project and invest only in the most compelling ones.

OUR SERVICES

Trading Chambers Project offers wide range of services to our client. A summary of the same is described below

TRADING CHAMBERS INVESTMENTS

We invest in fast Blockchain projects that generate substantial returns during their initial coin offerings (ICOs) when they are listed on the stock exchange.

TRADING CHAMBERS ADVISORY SERVICES

We guide businesses on how to create ICOs, secure financing in a pre-sale, and navigate the ICO market

CRYPTOCURRENCY P2P TRADE

We deal in continuous cryptocurrency peer-to-peer trading.

TRADING CHAMBERS LISTING SERVICES

We employ a team of well-known cryptocurrency experts good at studying the market and discharging great trading advice and guidance to assist traders or investors who need to list their NICO tokens for trading

 **TRADING CHAMBERS**

AiBBB - AI assistant enabled applications for trading across Crypto Markets

INVESTMENT PROCESS

Trading Chambers uses stringent process for shortlisting Projects. We receive over 500 Applications for funding, initial screening is done on the basis of our minimum qualification criteria questionnaire, Project viability and quality of Whitepaper. 100 of the shortlisted projects are invited to a face to face assessment via organized events. At least 50 are selected for Company visits and further screening happens at Company's premise. We visit them to understand Project and the ICO structure in detail, 20 of the 50 Projects are shortlisted for funding. We invest in them aggressively, participate in their ICOs planning, arrange for more funding if needed and drive the process to closure

OUR REVENUE MODEL

Trading Chambers revenues are multi domain, primary sources are from trades, advisory services, ICOs consulting and Asset/Platform Management fees.

Trades

Our trade Analysts research on upcoming Tokens on various exchanges, We deploy various strategies like Position trading, Swing Trading, Scalping etc., to maximize returns.

Advisory

Trading Chamber advises various Companies for planning and implementation of ICOs. This process involves non-technical assessment of Business and formulating an ICO strategy.

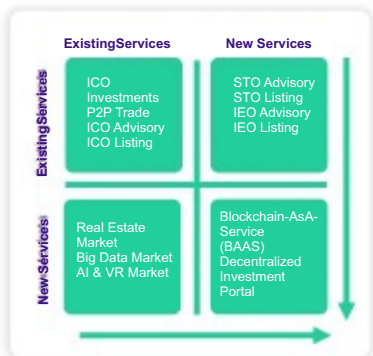

ICOS

Our Analysts purchase Tokens during a presale of the most compelling ICOs and resell them to Public during ICOs making substantial gains.

Management Fee

Trading Chambers charges an yearly Asset and Platform Management Fee for its investors, which add up to the revenue streams

CRYPTO INVESTMENT MARKET OPPORTUNITY

Investments in Crypto is a latest frenzy. The ease of investing, multiple platforms and high returns are few of the many reasons, why investing in Crypto is appealing.

Cryptocurrency enthusiasts are constantly looking for interesting ICO projects to purchase Tokens of in a hope that the either the Tokens will appreciate in value or they can use the benefits of the Platform.

Cryptocurrencies are extremely volatile in nature. Due to their limited acceptance in the traditional economy, investors have almost no options to disperse their risk.

Money has three important characteristics, it serves as a unit of account, a medium of exchange and as a store of value. Currently, Cryptocurrencies are primarily used as a store of value. This means that there are limited options to escape the volatility of its value. At present, the only real way out is to reconvert into a fiat currency or invest into something more stable and which can help appreciate the value of the current holding.

Trading Chambers offers a solution in this regard, that Investors can purchase 'Packages' from the Company. Holding Packages instead of Cryptocurrencies is by far a safer option and more rewarding as the Packages yield guaranteed returns.

“Bitcoin is a technological tour de force .”Bill Gates

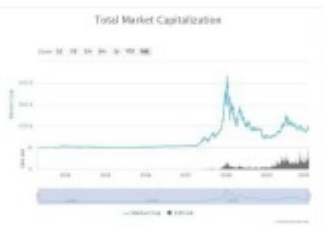

INVESTMENT TRENDS IN ICOS'

The statistics for the last 5 years show a rapid boom in the Cryptocurrency market, ICOs have raised over \$4B worth of Capital until recently. As on Jan'20, the total market cap of Cryptocurrencies reached \$239B with a total of 5048* crypto currencies trading in the market. The individual market cap of few of the major Cryptocurrencies is shown below:

Bitcoin Market Cap - **\$157,264,226,927**
 Ethereum Market Cap - **\$18,409,599,482**
 Ripple Market Cap - **\$10,307,638,077**

Crypto Investors are in continuous pursuit to reinvest their holdings into more rewarding Crypto Projects. NexusICO aims to provide the same to our Investors by converting their volatile Crypto holdings into a income producing entities. The total Market Cap of all Cryptocurrencies as on Jan'2020 is shown below.

ICOS' V/S PRIVATE EQUITY

Our research indicates that investing in ICOs is substantially more profitable than other Investment options like Private Equity, Bonds or Funds. The ease of regulations and high returns enable us to operate in a dynamic market and help disburse dividends on a daily basis. Below is a brief illustration of the same.

	Traditional VC	Crypto investments
Investment horizon	7-10 years	1-5 years
Ownership model	Privileged shares	Crypto tokens, crypto currency
Entry stage	Angel, Seed, A/B rounds	Pre-mine, Genesis, pre-ICO, ICO
Exit options	IPO, M&A	IPO, M&A, placement on exchange
Business model	Product or service sell	Closed loop - economy, based on crypto
Legal structure	Limited partnership	No Jurisdiction for DAO registration
Entry Sources	Private investors, family, institutional investors	Crowdfunding, innovative funds and private investors, future users
Currencies	Fiat (\$, RUR, £)	Fiat and cryptocurrency
Criteria	New or emerging business models	New business models creation

WHY TRADING CHAMBERS?

Democratization of access

Opportunity to trade tokens immediately
